

This is the master list provided by the VA and shows the Total number of housing vouchers currently Allocated to house veterans in each area or state. Predictive modeling suggests the Estimated Need is based on a 10% turn-over of vouchers. The Funding Required column is the approximate amount veterans need to use those vouchers. This number is based on our national average of \$750 per veteran. Your area may be higher or lower based solely on housing costs. Contact us for more precise funding targets if warranted.
